EXECUTIVE SUMMARY

Aspiring Data Analyst and Risk Analytics professional in the final-year Statistics undergraduate with a minor in Big Data Analytics at Universiti Teknologi MARA (UiTM) and a CGPA of 3.73. Possess strong analytical and problem-solving skills with experience in statistical modelling, data visualization, model validation and predictive modelling using tools such as Excel, RStudio, Python, SPSS and Power BI. Seeking opportunities in data analytics, model validation, risk management, or business intelligence to contribute to data-driven decision-making while further developing professional expertise.

WORK EXPERIENCE

Model Validation Intern – Enterprise Risk & Sector Governance **Mar 2026 – Present**

Bank Rakyat Headquarters - Bangsar, Kuala Lumpur

- Performed credit risk scorecard validation by conducting data quality assessments, including data cleaning, preprocessing, dashboard visualization and consistency checks on dataset using RStudio and Power BI.
- Assessed the methodology of factor selection through Weight of Evidence (WOE) and Information Value (IV) analysis to evaluate variable predictive strength.
- Evaluated model performance and discriminatory power by computing Gini Coefficient, Kolmogorov-Smirnov (KS) Statistic and ROC-AUC metrics.
- Collaborated with risk management staff in organizing Bank Rakyat Risk Culture initiatives, including quizzes, posters and awareness videos to promote risk awareness among employees.

Event Crew – MAHA 2024 **Sept 2024**

Universiti Putra Malaysia (UPM) - MAEPS Serdang, Selangor

- Supported operational management for a large-scale expo attended by thousands of visitors.
- Coordinated with team members to ensure smooth event flow.

Part - Time Team Member – Boost Juice Bar **Apr 2021 – Sept 2021**

Vitality Boost Sdn Bhd., Boost The Miness - Putrajaya

- Served 100+ customers per peak shift while maintaining service efficiency.
- Managed cash handling, cleanliness, and inventory restocking.
- Developed strong communication and customer service skills.

EDUCATION

Universiti Teknologi MARA (UiTM) - Seremban, Negeri Sembilan **Mar 2024 - Present**

Bachelor of Science (Hons.) Statistics (Minor in Big Data Analytics)

- CGPA: 3.73 | Dean's List: All Semesters

Universiti Teknologi MARA (UiTM) - Raub, Pahang **Oct 2021 - Feb 2024**

Diploma in Statistics

- CGPA: 3.75 | MUET: Band 3.5
- Dean's List: All Semesters
- Award: Vice Chancellor Award

Technical Institute of Kuala Lumpur - Kuala Lumpur **Jan 2019 - Mar 2021**

Sijil Pelajaran Malaysia (SPM)

- Result: 1A+, 3A, 2A-, 2B+, 1B, 1C+

RELEVANT COURSEWORK

- Programming for Data Science (DSC551)
- Intelligent Decision-Making Support Systems (ISP688)
- Business Data Analytics (ISP610)
- Data Representation & Reporting Techniques (DSC651)
- Statistical Modelling & Data Mining
- Applied Probability & Statistical Inference

ACADEMIC PROJECTS

Final Year Project: Predictive Model for Diabetes Using Logistic Regression

- Developed a predictive model to identify significant health indicators associated with diabetes.
- Conducted data cleaning, statistical testing, and model evaluation using SAS Enterprise Miner and RStudio.
- Interpreted results and presented findings in a structured analytical report.

Sentiment Analysis of Uniqlo Online Customer Reviews

- Built a sentiment classification model using machine learning techniques.
- Performed text preprocessing, feature extraction and model evaluation using RapidMiner/AI Studio.
- Improved classification accuracy through iterative testing and refinement.

Diabetes Case Analysis in the United States

- Conducted exploratory data analysis and visualization using Microsoft Power BI.
- Identified trends and contributing factors related to diabetes prevalence.

LEADERSHIP & ORGANIZATIONAL EXPERIENCE

- Secretary – Jawatankuasa Sukan Pelajar (JSP) Club (Mar 2023 – Feb 2024)
- Volunteer – Karista UiTM 2023 (Sept 2023)

TECHNICAL PROFICIENCY

- **Data & Analytics Tools:** Microsoft Excel (Advanced), SPSS (Advanced), SAS Enterprise Miner (Intermediate), RStudio (Intermediate), Python (Intermediate), Power BI (Intermediate), Tableau (Basic), Alteryx (Basic), Rapidminer/AI Studio (Basic)
- **Other Technical Skills:** Microsoft Word, C++ (Basic), Figma, Canva
- **Core Competencies:** Data Cleaning & Preparation, Statistical Analysis, Data Visualization, Problem Solving, Data Interpretation, Communication, Teamwork, Time Management, Leadership, Credit Risk Analysis, Model Validation, Predictive Modelling

ADDITIONAL INFORMATION

- **Languages:** Malay (Fluent), English (Fluent), Mandarin (Basic)
- **License & Transport:** Available
